

Natinael Asefa

JUNIOR PROGRAMMER

Enthusiastic and technically grounded Junior Programmer with a solid foundation in software engineering, database management, and cloud-native backend design. Demonstrated experience building end-to-end applications, designing robust relational data structures, and handling cloud infrastructure. Eager to bring a strong growth mindset and proactive problem-solving abilities to Red Cloud ICT Solutions' e-commerce, cloud hosting, and payment integration initiatives.

🎓 EDUCATION

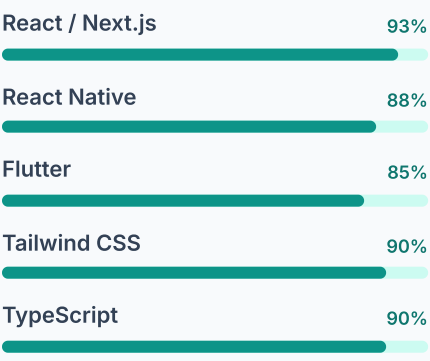

B.S. Computer Science / IT
Jimma University

📅 June 2026

Coursework: Advanced Databases, Software Engineering, Systems Architecture.

🔧 TOP SKILLS

📱 FRONTEND & MOBILE

🗄️ BACKEND & DATABASE

💼 EXPERIENCE

• Software Engineering Intern

Addis Ababa, ET

Kifiya Financial Technology

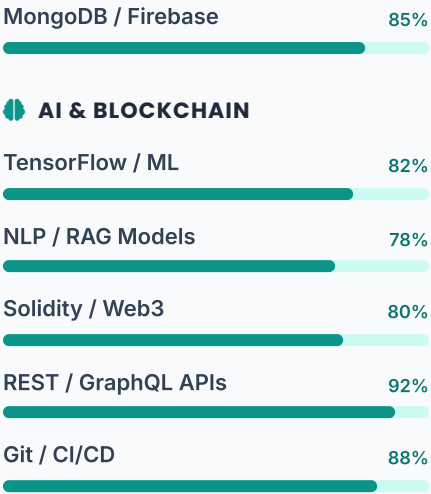

- Collaborated with mid-level and senior developers in an Agile environment to build, test, and debug digital products and financial tech tools.
- Assisted in writing clean, maintainable backend code and verified data integrity across complex relational databases.
- Participated in routine team sprint meetings, code reviews, and technical brainstorming sessions to optimize system workflows.

🔗 KEY PROJECTS

• Erdataye Smart EMS (Emergency Service)

Lead Developer | Academic Capstone

- Architected a full-stack emergency dispatch ecosystem featuring integrated workflows for patients, drivers, and hospital operators.
- Designed and managed complex relational cloud database structures using **Supabase (PostgreSQL)** and configured remote deployments via Contabo VPS.
- Utilized PlantUML and Mermaid to model detailed class and sequence diagrams, ensuring clean architecture and smooth data flow.
- Implemented secure API communication protocols to handle real-time location and dispatch tracking parameters.

- ## AI-Powered Systems in Banking & Underwriting
- ### Technical Researcher
- Conducted comprehensive technical analysis on the application and efficiency patterns of AI systems within loan underwriting infrastructures.
 - Analyzed financial decision-making logic and compiled automated cost modeling structures, standardizing multi-currency reporting data points.
